Design Prestressed Concrete Section for Flexure, 585

Space Truss Nonlinear Analysis, 600

Structural plastics

Structural Plastics Design Manual, 1040

Structural reliability

Advanced Reliability Method for Fatigue Analysis, 193

Approximations of Convolution Integrals, 201

Bivariate Lognormal Probability Distribution, 752

Conditional Gaussian Probability Density, 164

Crossings of Non-Gaussian Translation Processes, 198

Extremes of Correlated Non-Gaussian Series, 653

First Outcrossing Probability Bounds, 176

Load Combination Analysis by Translation Processes, 670

Practical Structural Reliability Techniques, 669

Propagation of Certainty Levels, 683

Reliability of Highly Redundant Plastic Structures, 205

Reliability of Wood Structural Systems, 749

Stochastic Combination of Load Effects, 662

Structural Reliability Analysis of Series Systems, 654

Taylor Expansion of Series System Reliability, 177

Wind Direction and Structural Reliability II, 634

Structural response

Dynamics of Structures on Two-Spring Foundation Allowed to Uplift, 236

Force Coupled Structure-Foundation Interaction, 865

Hydrodynamic Forces on Flexible Offshore Structures, 187

Optimal Control of Buildings by Appendages, 614

Recursive Covariance of Structural Responses, 277

Seismic Inputs for Nonlinear Structures, 215

Structural Response of Partially Fibrous Concrete Beams, 738

Structural Response under Multicomponent Earthquakes, 211

Structural safety

Probabilistic Analysis of Timber Bridge Decks, 746

Taylor Expansion of Series System Reliability, 177

Structural settlement

Post-Construction Deformation of Rockfill Dams, 347

Structural stability

Nonlinear FSI Due to Underwater Explosions, 191

Structural steels

Fatigue Tests of Weathered Welded Joints, 698

Lack of Fit in High Strength Bolted Connections, 633

Structural Steel Details: Comments on Divided Responsibility, 908

Structured safety

Conditional Gaussian Probability Density, 164

Struts

Failure Criteria for Stayed Columns, 731

Subgrades

Improvements to Pavement Subgrade Strain Criterion, 815

Submarine pipelines

In-Service Buckling of Heated Pipelines, 788

Subsidence

Ground-Water/Subsidence Model: A Management Tool, 842

Subsidies, financial

Examining the Performance Impacts of Transit Operating Subsidies, 809

Subsurface drainage

Corrugated Pipe Flow Rate from Pipe Geometry, 542

Sulfide buildup

Prediction of Sulfide Buildup in Sanitary Sewers, 17

Sump pumps

Hydraulic Model Study of Pump Sump Design, 482
Scale Effects in Pump Sump Models, 501

Sumps

Air Ingestion Due to Free-Surface Vortices, 521
Scale Effects in Pump Sump Models, 501

Supports

Boundary Effects in Suspended Cable Roofs, 625

Surf zone

The CRAB: A Unique Nearshore Surveying Vehicle, 754

Wave Cuts in Sand Slopes Applied to Coastal Models, 858

Surface irrigation

Management Contours for Border Irrigation, 555
Modeling Effect of Depth on Furrow Infiltration, 553

Normalized Graphs of Border-Irrigation Performance, 552

Surface jets

Reynolds Number Effects on Buoyant Surface Nets, 453

Surface Buoyant Jets in Stagnant Water, 452

Surface waters

Effect of Rain on Surface Reaeration, 56

Procedure for Estimating Surface-Water Intake Costs, 85

Surface waves

Wave-Current Models for Design of Marine Structures, 882

Surge

Surge Shaft Stability with Pumped-Storage Schemes, 445

Tether Deformation and Tension Leg Platform Surge, 649

Turbulent Winds and Tension Leg Platform Surge, 607

Surveying

Accuracy and Reliability in Geodetic Networks-Program System OPTUN, 767

Astro-Azimuth Using Time Difference, 765

Can Digital Terrain Data Cut Route Selection Time?, 899

The CRAB: A Unique Nearshore Surveying Vehicle, 754

Electronic Advancements in Hydrographic Surveying, 756

Evaluating Data Collectors as a Surveying Tool, 961

Inertial Surveying Systems and Their Use in Geodetic Surveying, 759

Practical Traverse Analysis, 761

R&D Needs in Geodetic Surveying, 758

Surveying's New Promise: Centimeters from Space, 896

Three-Dimensional Adjustment Computations Model, 763

Trilateration as Basis for Radial Staking, 760

Surveys, data collection

ASCE Salary Survey 1983, 1005

Suspended load

Accidental Loads in Crane Girders: A Case Study, 666

Numerical Integration of Einstein's Integrals, I_1 and I_2 , 523

Sediment Transport, Part II: Suspended Load Transport, 506

Suspended sediments

Chute Entrances for HS, H, and HL Flumes, 439

Fifty Years of Sedimentation, 467

Improved Numerical Model for Sedimentation, 418

Instability of Hyperconcentrated Flow, 417

Laboratory Studies on Hydrocarbon Tracer Gases, 58

Low-Temperature Effects on Flow in Sand-Bed Streams, 411

Sediment Suspension with Rippled Bed, 7

Suspended Sediment Distribution in Wave Field, 867

Two-D Flow with Sediment by Characteristics Method, 441

Suspended solids

Innovative Engineering Completes Dredge Spoil Disposal Facility, 903

Suspended structures

Stress Optimized Suspended Liquid Containers, 250

Sway frames

Interaction Analysis of Asymmetric Sway Subassemblies, 712

Simplified Interaction Method for Sway Frames, 618

Synthetic textiles

Fire Combustion Toxicity Tests—Good Idea or Not?, 921

System reliability

Fatigue Reliability of Parallel Member Systems, 706

Structural Reliability Analysis of Series Systems, 654

Systems engineering

Dredged-Material Disposal Management Model, 825

SUBJECT INDEX

Systems management

Water Management Using Interactive Simulation, 841

Tailings
